

NORTHERN EXTENSION OF THE CRENSHAW/LAX LINE

Key Project Benefits

90,000 Estimated Average Daily Riders
– More than any Light Rail Line in the US

Connects 5 Metro Rail Lines in the Heart of the Region
– Red, Purple, Expo, Crenshaw South, & Green Lines

Makes a one-seat ride from Torrance to Hollywood possible
connecting the South Bay to the San Fernando Valley via the Red Line

58 minutes every time, regardless of traffic

The Extended Crenshaw Line would serve:

Disadvantaged communities with connections to job centers like Cedars-Sinai

249,000 jobs
(14,200 retail, 58,400 service, 24,200 media, 20,100 office)

324,000 residents

770 regional destinations

70,900 0-1 car households

Could provide an alternative to 3 of the 20 most congested bus corridors in the County where bus speeds are severely impacted

Santa Monica Blvd., the most congested bus corridor countywide

Fairfax Ave. (5th)

La Cienega Blvd. (11th)

Will boost ridership on all other Metro Rail lines

LET'S FINISH THE LINE!

Help us connect the Metro Crenshaw Line to the Red Line in Hollywood

The Crenshaw Line Northern Extension will create an important north-south connection from LAX and Inglewood (new home of the Los Angeles Rams and multiple LA 2028 Olympic Venues!) through West Hollywood to Hollywood & Highland, where it will connect with the Red Line.

By connecting five Metro Rail lines from the South Bay to the San Fernando Valley, this key project will transform regional mobility. This level of connectivity through the most congested part of LA is expected to produce the highest ridership of any light rail line in the country with over **90,000 daily boardings** and ripple effects across the entire Metro Rail system.

This line will provide safe, reliable, affordable rail transit to Cedars-Sinai Medical Center, the Beverly Center, Hollywood & Highland, Universal Studios and more.

Extending the Crenshaw Line
